LODGESONS 
PUTTING YOU IN CONTROL

Why Choose Lodgesons?

Lodgesons are the **UK market leader** and **Motability's top supplier** of wireless keypad controls. We are the installers choice as we offer the most technologically advanced solution available on the market.

- Choice of quick release grips - EuroGrip and soft-touch Lollipop/steering ball
- Ergonomic design for maximum driver comfort
- Self-cancelling indicators available on most vehicles
- Keypad illumination for night-time driving
- Long lasting battery
- Vehicle controls will operate as normal when keypad is not in use
- Available for demonstration at Assessment Centres and Driving Schools nationwide
- All products designed, manufactured and supported in the UK
- Meets all UK and international regulatory approval standards

For further information or to find your nearest installer, Driving Instructor or Assessment Centre go to www.lodgesons.co.uk

Introducing a brand new addition to our range!

The New EuroGrip is available with 10 or 13 functions, has a new ergonomic design and comes with a quick release clamp.

Lodgesons Wireless Keypad Controls

Our wireless keypad steering grips enable you to safely steer the car whilst operating the secondary functions (e.g. indicators and wipers) with just one hand. Simply pressing a button activates the required function.

	Lollipop Steering Ball			New EuroGrip
